

## Assignment -1

### Python Programming

Project Name	Smart Solution For Railways
Date	13 November 2022
Project ID	PNT2022TMID27503

#### Question-1:

Write a program which will find all such numbers which are divisible by 7 but are not a multiple of 5, between 2000 and 3200 (both included). The numbers obtained should be printed in a comma-separated sequence on a single line.

The screenshot shows a web-based Python IDE. The code in the editor is as follows:

```
1 l=[]
2 * for i in range(2000, 3201):
3 *     if (i%7==0) and (i%5!=0):
4 *         l.append(str(i))
5
6
7
8 print(','.join(l))
9
10
```

The output in the Shell window is a long comma-separated list of numbers: 2002, 2009, 2016, 2023, 2037, 2044, 2051, 2058, 2072, 2079, 2086, 2093, 2107, 2114, 2121, 2128, 2142, 2149, 2156, 2163, 2177, 2184, 2191, 2198, 2212, 2219, 2226, 2233, 2247, 2254, 2261, 2268, 2282, 2289, 2296, 2303, 2317, 2324, 2331, 2338, 2352, 2359, 2366, 2373, 2387, 2394, 2401, 2408, 2422, 2429, 2436, 2443, 2457, 2464, 2471, 2478, 2492, 2499, 2506, 2513, 2527, 2534, 2541, 2548, 2562, 2569, 2576, 2583, 2597, 2604, 2611, 2618, 2632, 2639, 2646, 2653, 2667, 2674, 2681, 2688, 2702, 2709, 2716, 2723, 2737, 2744, 2751, 2758, 2772, 2779, 2786, 2793, 2807, 2814, 2821, 2828, 2842, 2849, 2856, 2863, 2877, 2884, 2891, 2898, 2912, 2919, 2926, 2933, 2947, 2954, 2961, 2968, 2982, 2989, 2996, 3003, 3017, 3024, 3031, 3038, 3052, 3059, 3066, 3073, 3087, 3094, 3101, 3108, 3122, 3129, 3136, 3143, 3157, 3164, 3171, 3178, 3192, 3199.

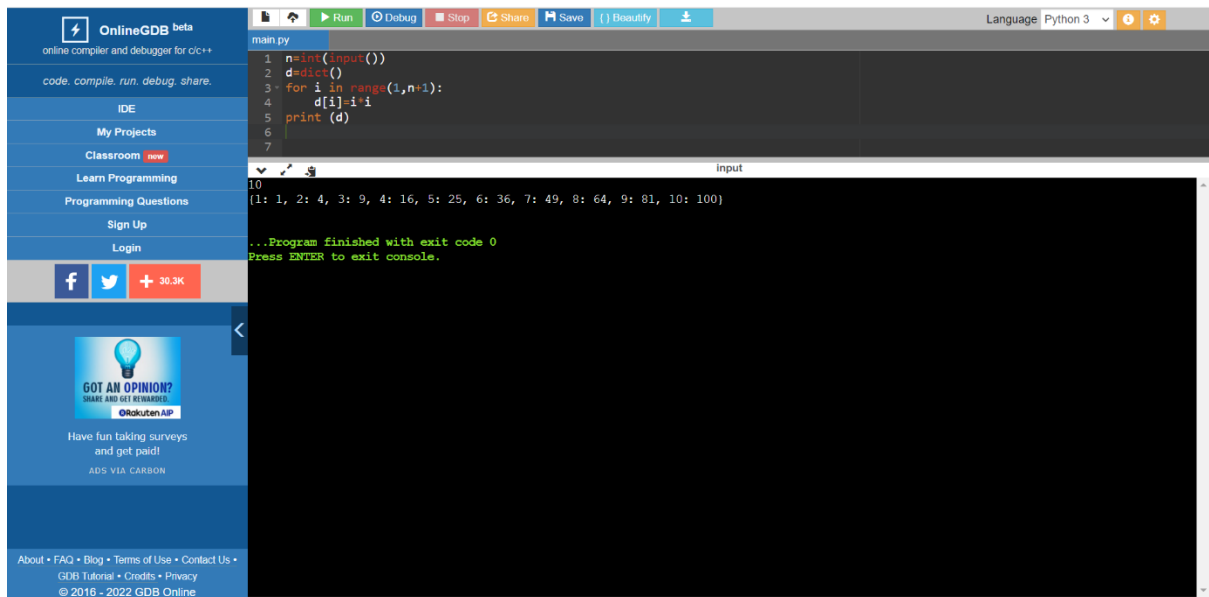

#### Question-2:

With a given integral number n, write a program to generate a dictionary that contains (i, i\*i) such that i is an integral number between 1 and n (both included). and then the program should print the dictionary.

Suppose the following input is supplied to the program:

8

Then, the output should be:  
{1: 1, 2: 4, 3: 9, 4: 16, 5: 25, 6: 36, 7: 49, 8: 64}

The screenshot shows the OnlineGDB web interface. On the left is a sidebar with navigation links: IDE, My Projects, Classroom, Learn Programming, Programming Questions, Sign Up, and Login. Below these are social media icons for Facebook, Twitter, and a '+ 30.3K' button. Further down is an advertisement for 'GOT AN OPINION?' by Rakuten AD. The main area at the top has a toolbar with buttons for Run, Debug, Stop, Share, Save, and a Beautify toggle. The language is set to Python 3. The code editor shows a file named 'main.py' with the following Python code:

```
1 n=int(input())
2 d=dict()
3 for i in range(1,n+1):
4     d[i]=i*i
5 print (d)
6
7
```

Below the code editor is an 'input' field with the value '10'. The output console shows the result of the program:

```
10
{1: 1, 2: 4, 3: 9, 4: 16, 5: 25, 6: 36, 7: 49, 8: 64, 9: 81, 10: 100}

...Program finished with exit code 0
Press ENTER to exit console.
```

At the bottom of the sidebar, there are links for About, FAQ, Blog, Terms of Use, and Contact Us, along with GDB Tutorial, Credits, and Privacy information. The footer indicates the copyright years 2016-2022 for GDB Online.
